

I am a registered Republican voter who is very concerned about the proposed loosening of FCC media ownership guidelines. The proposal would allow for excessive media consolidation in the hands of large corporations. Free market practises and competition would be drastically damaged. The only benefit of this would go to the owners of the largest media congolmerates. On June 2nd, I urge you to retain the current ownership rules, for the sake of free market competition, and democratic free speech in America.
